

Climate change and Health in the Mediterranean

Chair: Professor Antonio Navarra and Dr Bettina Menne

Opening: Dr Bettina Menne: The Situation in the Mediterranean (3 slides prepared with Antonio Navarra) to introduce the subject

Presentations

1. Short term effect of high temperatures on mortality in Mediterranean cities: Results from the EU-Funded Circe Project (Climate change and impact research: The Mediterranean environment) submitted
Speaker: Daniela Ippoliti
2. Is there synergy in the temperature and air pollution effects on health? Results from the CIRCE project in 10 Mediterranean cities
Speaker: Antonis Analitis, Klea Katsouyanni
3. Future re-emergence of infectious disease distribution in the Mediterranean area: How likely they are?
Speaker: Xavier Rodó, Menno J. Bouma
4. Climate change, water and health
Speaker: George Kamizoulis
5. Tools on assessing health impacts of climate change: lessons learnt from Malta, Italy and Turkey
Speaker: Tanja Wolf
6. Economic assessment of the health impacts of climate change in Europe
Speaker: Guy Hutton
7. Introduction to panel discussion: Current research needs on climate change and health
Speaker: Kris Ebi (IPCC)
